IN THE ARMY NOW

By Pvt. Buster Willis

Every week we are learning more and more about how to be soldiers. Any man that goes through the training units here is a pretty good risk to come home intact and not packed. For the past week we have been learning how to march at night and what to do to reach an objective. One night we went out on our trucks and went on a night problem to the back of the woods without lights. That is, with "black-out" lights which is the same thing as no lights. And going through the woods in the Louisiana wooded area it was just as black as the inside of a cow. The remarkable part is that we got back without even a dentured fence.

Upon reaching a point far in the woods we were halted and assembled and then we were divided into platoons. A previously arranged course to follow by the compass. The idea was to go far in one course and then many yards on another until finally you were supposed to get back to the point of beginning. I can't read a compass and some of the fellows who thought they could found out that they couldn't either.

When we finally got back to the point of the compass, we were as black as midnight's offspring. But all the time I knew where the trucks were. I tried to follow the compass and the fellows with me more than I would Al Kirschman and Hubie Chambliss kept telling me that I was getting lost and depended on them getting us out. We really were not far from three hundred yards but when we should have been back, I don't think any of us would have known and myself knew where to go from where we stopped.

Anyway, we got back without getting any of us picked out by limbe in the dark.

A fellow from one of the other regiments was over visiting in our tent the other night and told us some of his experiences on the firing range. While he was having a good time, he was telling his lieutenant came by and asked: "Are you comfortable?" The rifleman replied in a very emphatic manner that he certainly was not, to which the lieutenant said: "Good. You must have it alright."

I thought that I had known one of the world's best promoters in Luther Jones but we have a fellow in our company that Lake would have to take his hat off to.

This fellow has a "side-kick" and the two of them are like a pair of twins. They just get together. Last week end we had two days off. Having been on duty Memorial Day, they were given the following Saturday to make up for it and that week end came just after pay day.

These two fellows pitched a "hooker" on Saturday night. (Continued on page 3)

Five Observation Posts Put Into Operation Tuesday

Three Hour Periods
24 Hours a Day

The Glades now has its share of Air Warning Stations since Tuesday when four new observation posts were opened in this section.

One has been in operation for over three weeks at the Brown Farm and is running smoothly. The other three are available to command the post; they have divided the watches up between them and have continued to operate for many days.

Sam Fleming is in charge of the station here at Belle Glade, which is at the Okeechobee Camp. The other is located at the State Farm on the Pahokee road.

Two other posts are located at Bean City and Lake Harbor respectively and are already in operation.

The Okeechobee Observation Post is better provided with "spotters" than any of the other posts because more people are available to man the watches. Starting Tuesday, at noon, the post has been in continuous operation, changing of personnel is every three hours and "spotters" have only to stand two watches every week.

The observation set-up was started some months ago but was under way for a few days and could not seem to get enough pep into the program to fully get started. The command of the situation was changed a few days ago and the new command, the direct command of the Army.

Although a complete list is not available at this time, some of the people who have already stood one watch or who will have by the time this is in the paper are as follows: Lou Bates, Junius Harris, Sidney Smith, Jr., Billy Weeks, Howard Hancey, Jim Houghton, Doc Evers, George E. Murphy, Joe Freedlund, Joe Kirschman, Luther Jones, Arnold Krichman, Ross Robertson, Hubie Chambliss, Charles McWhorter, Charles Hobert, Charles Lee, C. McDonald, Joe Cherry, W. R. Hooker, Charlie Maynard, C. R. Bek, Geo. Mills, Louis Weiman, Hobert Tillery, E. M. VanLandingham, Casper VanLandingham and Tony Harker.

Most of the men are scheduled for early morning watches and the ladies are expected to do their share in the day. Some of the ladies have already taken their share, Dorothy, have had a return. Port Everglades, one three hour watch and others are expected to do their share also. Just how many and who will be on duty could not be had at the time.

Lou Betzner and Ross Robertson are helping Sam Fleming in the watches. They are expected to provide drivers with gasoline between July 1 and 15.

It was also announced that under the permanent rationing program beginning with July 15, the unit basis will be four gallons instead of three.

Mike Murphy, Jr., who is stationed at Santa Anna, California in the Air Corps, writes that he is having a good time and likes his work very much.

MIKE MURPHY, Jr., who is stationed at Santa Anna, California in the Air Corps, writes that he is having a good time and likes his work very much.

4-H GIRLS' CAMP TO BE IN JULY

County Agents M. O. Mounis and Edith Y. Barnes conducted a joint summer session of the boys and girls 4-H Clubs at the school in South Bay last week to discuss plans for summer activities.

Martha Rutley presented a cottage cheese sandwich demonstration. Sandwiches were served to all present.

The annual girl's camp was announced for the latter part of July at the Lake Worth Casino. Plans are under way for the boys camp. Mr. Mounis said, and will be announced as soon as completed. Both camps will combine a feature of former camps and Short Course activities in lieu of the State Short Courses which were called off.

Official Opening Of Bowling Alley Tonight At 8:00

In Full Charge Of All Bowling

The Legion-Lions Bowling Alleys will officially open tonight and will be operated under the supervision of the Lions Club.

The State Bureau of Blind has accepted the proposal of the Lions to train a blind man in the management of the alleys. He has been receiving instruction in Tampa for the past ten days in preparation for the opening of the alleys here.

He will report for duty today. The State Bureau is to be conditioning the alleys for use have been made and even a few games have been played to determine of the alleys were in good condition. Members of the Legion and the Lions met at the Legion Hall where the alleys are located on Monday night to inspect the alleys. With a few minor changes the alleys are expected to be as good as ever.

These changes will be made tonight when the bowling begins. Proceeds of the alleys will be used for Civic Improvements such as playground equipment in the City Park, the new Y.M.C.A. with the dental clinic, and furnishing glasses for underprivileged children.

The alleys will be open every night except Wednesday from 8:00 p. m. to 12:00 midnight. On Wednesdays they will be open at 1:00 p. m. till 8:00 p. m. and reopen at 9:00 p. m. and close at the usual time. There will be one afternoon for the ladies only from 1:30 to 6:00 p. m.

A committee has been appointed to take charge of the alleys and form teams for a league of bowlers. Sam Fleming, Sidney Smith, Jr., and Junius Harris are members of the committee. They are already being formed and are expected to get started with in the next few days.

For each game is 15 cents is paid for one game at a time but tickets will go on sale for thirty games for the price of \$3.00. The saving of 50 cents on each ticket.

The upper Everglades has experienced one of the heaviest rainy periods in many years in the last two weeks according to Orrin Manning, chairman of the drainage district, who said that the water level in the last week of rain fell in the first week of October, 1923, which was a record. Defense Council To Handle Registering For Gasoline Books

The Belle Glade Defense Council will handle the second gasoline rationing in this section, according to an announcement by Chairman Luther Jones.

The first registration was handled by the school system, but due to the fact that schools are not open here the defense council has been asked to assume the responsibility.

Since the present gasoline rationing is in effect, the new 1% new cards must be issued prior to that date.

Billy Weeks, as chief registrar for the defense council, will be in charge of the registration. He states that he will call for volunteers to take care of this registration and those who are willing to help with the work should communicate with him at once.

A simple plan of registration has been devised for this second rationing program and the registrants should have little difficulty with it.

The tentative plan calls for six days for the registration, these dates to be announced later, but probably the latter part of this month. Books, presumably containing the rationing program and the registrants should have little difficulty with it.

Golf Course Begins To Take Form After Days Of Steady Work

Progress of the new golf course is coming along fine stated Lou Betzner, Thursday. A large crew of men are at work every day on the course and the land is being leveled to take on the shape of a golf course.

The plans have been completed and the members at work on the course stood on the first green Tuesday afternoon to take their picture taken. Of course the green is not ready yet, but the balls land on it but the biggest part of the work was done. That of building the green up off the ground and digging out for sand traps.

The ground has been staked out and definite steps are being worked out to follow them in building the course. Greens will be large and beautifully formed, trees will be long enough to move markers back and forth to save the grass and dog-legs, sand traps, bunkers and other things a good course needs are being designed into the course.

The first tee will be the east end of the ground next to the road to the dyke and the first fairway will be toward the dyke. The second tee will be toward the dyke and the first fairway will be toward the dyke.

The first tee will be the east end of the ground next to the road to the dyke and the first fairway will be toward the dyke. The second tee will be toward the dyke and the first fairway will be toward the dyke.

BLOOD BANK

Four complete blood transfusion sets of "Lyoovac" have been purchased by Mike Murphy for Darden's Drug Store, Mike announced Thursday.

"Lyoovac" is a trade name for the injection plasma.

Over 500 of these sets were used at Pearl Harbor and was such a successful treatment in almost any sort of surroundings without fear of germs.

For future use Darden's will have four full sets of this "Lyoovac" is equal to a pint of human blood.

Caffey Resigns Presidency Of Bank Of Pahokee

The Directors Put Rupert Mock In Complete Charge of Bank

The board of directors of the Bank of Pahokee have announced the resignation of J. C. Caffey, president of the bank for the past three years and at the same time announced that Rupert Mock, cashier, will be in charge of the bank.

Due to poor health, Mr. Caffey has had to give up active interest in the bank and has sold his stock to the other members and will leave within a few days for his former home in Mobile, Ala. He came to Pahokee after a group of Wachula business men bought the interests of Pahokee bank.

Rupert Mock has been with the bank as long as the bank has been operating and under the present management has risen to the position of cashier. This is a just reward for his diligent work for the bank.

The bank of Pahokee is the only bank in Palm Beach County having been in operation since May 31, 1922. It has served the citizens of the Lake Okeechobee Region under excellent management of J. C. Caffey. Under the presidency of Dr. W. H. Lair for many years and the active management of E. G. Kilpatrick and J. C. Caffey, the bank has ridden out many financial storms during its years of existence.

Under the direction of present officials the bank has continued to show growth as the community has grown. Present officials of the bank are: Rupert Mock, R. K. Lewis and E. F. McIlwain. Directors are: R. L. Earnest, R. K. Lewis and Rupert Mock, E. F. McIlwain and H. S. Dennison.

Tax Deductions For Sickness

The amount of money which the average American will have left after he pays his taxes will grow smaller. The present Federal tax program is designed to drastically reduce public purchasing power, as well as to reduce needed revenue.

As a result, many families will be in a difficult position when faced with some inescapable special expenditure. Sickness is an example of that. The tax drain will take from millions of families excess money that should be used for doctor, dental and hospital bills.

It has been proposed that Congress recognize this fact, and write into the tax laws a provision whereby the individual can deduct money spent for medical care, in making up his income tax statement.

Such a provision would serve two excellent ends. First, it would be a definite contribution to better public health. Second, it would undoubtedly increase government tax revenue. People who are unable to pay medical bills usually have small means, and their tax payments are minor. If they were induced to pay those bills, the money would go to doctors who are mostly in the middle-income brackets which bear the heaviest part of present-day taxation.

The suggestion seems completely sound, to say nothing of its humanitarian aspects.

Senate Repudiates Economy Measures

Some time ago, the House of Representatives made heavy cuts in a number of important appropriation bills. None of these bills were war measures, and the House was widely praised for its action.

Now the Senate renders the House's action futile. In each case, it has increased the appropriation over the figure determined on in the House. The total increase amounts to the handsome sum of almost \$300,000,000.

The average citizen, who has been told time and again that maximum economy by everyone is vital in this war period, has a right to complain. Some of the appropriations approved by the Senate seem downright fantastic. One, for instance, is to finance restriction of sugar production—in spite of the fact that the country is short of sugar, and severe rationing has been imposed. Another is to pay for administration of prison limitations on coal—in spite of the fact that the OPA has complete and unquestioned authority over all prices. Still another makes financial provision for unnecessary travel by bureaucrats—in spite of the fact that all transportation facilities are needed for real war purposes, and that there is talk of rationing passenger travel in the near future. The action of the Senate in this matter is incomprehensible. It is a prime example of official repudiation of economy plans.

Doing The Impossible

Now it's an army of 8,000,000 men by the end of next year and a seven-ocean navy. Since Pearl Harbor \$72,603,000,000 have been appropriated for weapons and equipment that will beat the Axis. That's the victory news from Washington these days. Production schedules are so huge that you begin to ask if all that work can be done in time, even in the wonder world of America's mass production factories.

But when the first war schedule was announced after Pearl Harbor it seemed so impossibly huge that the Axis called it propaganda and said that for all our manufacturing skill and great resources we couldn't do it. You remember that schedule—125,000 airplanes, 75,000 tanks, 10,000,000 tons of shipping by the end of 1943.

Today our factories are turning out these planes and tanks and ships so fast that in many instances they are actually ahead of schedule. Proof of that is given in the stories written by the newspaper men who made a tour through several of the country's closely-guarded war plants. They reported some astonishing facts.

Liberty ships are now being built in 100 days and less, instead of the original estimate of 200. A factory manufacturing machine guns has doubled its production since February. The United States is now far ahead of the Axis in the number of machine tools it is making for use in war plants.

In almost every instance weapons are being produced faster today than most people thought possible only a short time ago. Big as the original schedules were, they are actually being exceeded. And the new ones will be exceeded too, for our industries have hit their victory stride. Doing the impossible is for them almost a routine job today.

Inventions For Victory

"Never say anything can't be done. Say instead that as yet no way has been found to do it."

That's the advice of a man who knows what he's talking about—a famous inventor and engineer who has given us things like the self-starter and acetone gasoline, to mention two of the many. According to him, mechanical advances are being made even faster than usual today because of the pressure of war needs. Already we have new devices on our planes and tanks that enable them in many instances to outperform those made by our enemies.

We haven't stopped improving them and our other weapons, either. New war inventions are being produced all the time. More than 45,000 suggestions were sent in to the Patent Office last year by America's inventors, and 3,000 of them have been adopted to date. Some of these inventions have to do with new

USE THE BUCKET!

machines, like the outrigger tank that is really a rolling fortress, and the ground strafe airplane with guns in the belly of the plane. Others concern such things as emergency food rations and lightweight armored clothing.

The last war hastened the development of several new products—the radio, stainless steel, and dozens of new alloys and metals. There's no telling yet what things will come out of today's shortages and needs. Necessity is the mother of invention, all right, and she gets in some good licks in a country like this where inventors are encouraged by industry and by our traditional patent system that has been protecting their rights for more than 150 years.

With the nation on a war footing, here are some of the things the South may expect in the coming months:

Transportation troubles . . . Fever and shiver passenger trains because of heavy troop movement from the many army camps in the South. Crowded busses. No through bus service and no new routes. Gas rationing everywhere. . . In the Atlantic states to save gasoline, elsewhere to conserve the tires.

More Money

An increasing demand of war orders for Southern firms both large and small . . . The regional WPB recently set a million dollars a day as its minimum goal for bringing new business to the South, and it's getting the business now. This means more employment, better jobs, more money for everyone who buys and sells.

But we can't expect to build any new homes, stores, or bridges. And business at roadside stands, tourist camps and resorts will be hit hard.

The wool problem is getting more serious . . . Folks will wear more cotton clothing. . . Clothes won't be rationed this year, but we may expect rationing of imported things, including tea and coffee.

Pork may grow harder to get because we're sending lots of pork abroad. The same is true of sea foods and fish.

Retail deliveries will be greatly curtailed. . . Most of the milk trucks will be off the streets in less than two years unless further steps are taken to save their tires. Horses have already gone back on the job in some southern cities.

Food Control
A food requirements committee has been set up under WPB to take control over the nation's food supplies.

President Roosevelt's rubber salvage campaign is under way with gas stations paying a cent a pound for the vital stuff. They are serving as collection depots for the government.

WPB plans to save a million pounds of brass this year by

cars just as soon as our Air Force got its action over Germany.

Theft Enters

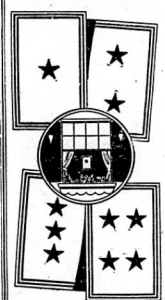

The Bowen Service Station at the junction of State Roads 25 and 26 was entered through a window some time during Sunday night. Candy, cigarettes and cash were missing. Deputy W. M. Motes of Belle Glade investigated and summoned a finger print man from the sheriff's office Monday morning to go over the station for prints of the person or persons guilty.

Chosen Store Robbed

The Jack Royal store at Chosen was broken into Sunday night by some person or persons unknown, according to Deputy W. M. Motes, and a new 20-gauge shot gun, candy, cash and cigarettes taken. An investigation is under way by officers.

FREE SERVICE STAR CARDS FOR THE FAMILIES OF SERVICE MEN

This Service Star window card should be seen in every home in America that is represented by a father, husband, son or brother in the Armed Forces of the United States. It emphasizes America's pride in those who are serving our country in time of war.

BLUE, SILVER OR GOLD
The Blue Star indicates service in the Army, Navy or Marine Corps within the boundaries of the United States.

The Silver Star denotes service outside the continental United States, either on the high seas, in the United States possessions, or on foreign soil.

The Gold Star is America's tribute to those who make the supreme sacrifice under the Stars and Stripes in time of war.

You are entitled to display the proper star for each member of your family serving in the Armed Forces of the United States of America. For example, if you are the parent of one boy in camp in the U.S.A., you are entitled to one Blue Star. If you have two sons in service—one in the U.S.A. and one outside the U.S.A.—you are entitled to a Service Star card bearing one Blue Star and one Silver Star.

Produced in Red, White and Blue Actual size 6 inches x 9 1/4 inches.

This space contributed by (Name of Newspaper) as a patriotic service to those who are giving their loved ones to the cause of victory.

Social Happenings

NELL SCULLEN, EDITOR

PHONE 44-W

Dr. and Mrs. Richard Townsend and sons, Dick and John, have gone to Orchard Park, N. Y. to visit his parents.

Mr. and Mrs. Robert Creech have gone to Hot Springs, Ark., to spend their vacation.

Monroe-Smith has gone to Charleston, S. C. to accept a position with the Arundel Corporation and work on a government project at Moncks Corner.

Miss Mary Hall is spending the week end at Gradenato as the guest of Mr. and Mrs. Beckenbach.

Mr. and Mrs. T. C. Cone and children, Carline and Jerry of Pahokee have moved here and will live in Holloway's Subdivision. Mr. Cone will manage the Geiger Lumber Company and Triangle Service Station.

Mrs. W. B. Granger has gone to Atlanta to take her son, Walter, to school for the summer.

Miss Margaret Johnson has returned to her home in Atlanta after spending two weeks as the guest of Mr. and Mrs. James Howington.

Lieut. John Wilson has gone to Atlanta to report for service in the Army Medical Corps at Lawson General Hospital.

Ray A. Bair of the Everglades Experiment Station has gone to Gainesville on business.

Lieut. John Hooker has gone to Fort Benning to report for service in the Army Medical Corps.

Mrs. Irene Hanel of Nahant, Ga., is here to visit her brother-in-law and sister, Mr. and Mrs. Ray Browne.

Rev. and Mrs. Jay O. Jamison and Mr. and Mrs. Ralph Kidder have returned from De Land where they attended the Methodist Conference.

Mr. and Mrs. John Rickard and Miss Marjorie Daugherty have gone to Jacksonville to visit relatives.

Miss Sara Creech has gone to Jacksonville on business and will visit relatives.

Mr. and Mrs. Eugene McCabe and daughters, Elaine and Eugenia, have gone to New York to visit relatives during the summer.

Mr. and Mrs. Curtis Thompson and sons, Curtis, Jr., and John, have gone to New York and Washington to spend several weeks.

Miss Frances Clements has gone to Fort Meade to visit her parents and later will go to Washington.

Mr. and Mrs. James Darden and grandson, Bobby Matthews, have gone to Fort Myers to spend two weeks on the beach.

Mr. and Mrs. Sidney Smith spent Thursday in Miami on business.

Mrs. H. A. Stoltenberg has returned from a visit to relatives in Miami and Hallandale.

Miss Elizabeth Thompson has gone to Ochlocknee, Ga., to visit her parents, Mr. and Mrs. Horace Thompson and later will go to New York and Washington.

Mr. and Mrs. Jack Keese expect to leave this week for Chicago and later will go on a tour of the Rocky Mountains.

Mrs. J. C. Loefer and daughter have returned to their home in Orlando after visiting Mr. and Mrs. Roscoe Bradstock.

Mr. and Mrs. C. J. Young of Miami are the guests of her son-in-law and daughter, Mr. and Mrs. George Tedder.

Mr. and Mrs. Allen Greer

and son, Charles, have gone to Lake Worth to spend the summer.

Mr. and Mrs. Marion Spooner have gone to Mobile, Ala., to make their home.

John Harris is recovering from an illness in the Everglades Memorial hospital in Pahokee.

Mrs. Milton Carr and daughter Susan, of Miami are here to spend the summer with her mother, Mrs. Dora McWhorter.

Otis McWhorter is leaving this week for New York where he will spend the summer at work. Mrs. McWhorter is visiting her mother in Knoxville, Tenn.

Mrs. Gene Bass has gone to Lakeland to spend several weeks with her brother-in-law and sister, Mr. and Mrs. Lavory Welch.

Mr. and Mrs. Clive Boone are spending their vacation in Tampa and Wauchula with relatives.

Mr. and Mrs. W. T. Carline and children, Jean and Tommy, have returned from a two weeks visit to relatives in the northern part of the state.

Mr. and Mrs. J. W. Lyons, son Elmer, daughter, Kathryn of Elmer, accompanied by Mrs. Arthur Wells, daughter, Gloria and son David, of Belle Glade left last week for Arizona where Mrs. Wells and children will remain for a time. Mr. and Mrs. Lyons returning home shortly and the family remaining for an extended visit.

JUNIOR WOMAN'S CLUB ENTERTAINS AT BRIDGE
The Junior Woman's Club was entertained with a bridge party at the home of Mrs. Edith VanLandingham Wednesday afternoon.

Those playing were Mrs. Ben Fleming, Mrs. Alice VanLandingham, Mrs. Theo Dooley, Mrs.

Rev. and Mrs. E. L. Housley attended the annual conference of the Methodist church at Lakeland last week.

Jimmie Farley is visiting his parents at Jasper, Ala.

Mr. and Mrs. Chalcanein, son Mike, have returned from a visit with her parents at Swainsboro, Ga. Miss Peggy Thompson, sister of Mrs. Chalcanein, returned with them. They visited in Jacksonville for several days enroute home and brought Miss Barbara Hahn of Jacksonville with them for a visit with old friends in this vicinity.

Mr. and Mrs. A. O. Walker, daughters, Quinn, Donna Fay and Dorothy, and sons, Junior and Robert Nathaniel left last week to spend a month in Miami.

Mr. and Mrs. George A. Yon and children, Delores and Raymond, visited relatives and friends in Clewiston Sunday.

Mary Elizabeth Crocker of Pahokee is spending the summer with her grandmother, Mrs. Maude Hartline and acting clerk at the local postoffice.

Bean City Has Chicken Supper Tuesday Night

An end of the season chicken supper was enjoyed by residents of Bean City last Tuesday evening. Those attending included Mr. and Mrs. E. E. Dasher, Mr. and Mrs. J. P. Prevatt, Mr. and Mrs. J. H. Harrell, Fred Mosley, Mr. and Mrs. R. A. Hall, Mr. and Mrs. John L. Evans, Homer Sellers, Leslie Lyons, and Mrs. J. Frank Prevatt, Mr. and Mrs. Hovas Prevatt, Mr. and Mrs. C. A. Armstrong, Norma Jean Armstrong, Mr. and Mrs. Denver Watts, Jimmie Farley and Charles Strother.

Garden Club Elects Officers At Meeting

B. B. Q. Waddell was elected president of the Belle Glade Garden Club at the regular meeting held at the home of Mrs. Ralph Freeman, following a pot luck luncheon. Other officers on the slate are Mrs. Freeman, vice president; Mrs. Herbert D. Beck, recording secretary; C. E. Reid, treasurer.

Mrs. Reid, retiring president, presided over the business session when it was voted to continue meetings through the summer. The group also decided to turn over the picnic and out door stove to the city park committee for arrangement according to the city park plans.

The date for the next meeting was set for July 9 at the home of Mrs. Hampton Holloway.

In a series of contests which

have been held each meeting during the year, the first score of points placed Mrs. Waddell high; Mrs. Reid, second and Mrs. Jay Jameson, third.

Flag Day Program To Be Held This Sunday

The Flag Day program which was to have been held on Sunday, June 14, in the Elks hall in Pahokee, has been postponed until this Sunday, June 21.

Uncle Sam has far more

POWER
for War Production

than all these three together!

Adapt, Hirohito and Benito aren't sleeping well these nights. They know that America's war production must inevitably turn the tide against them. America can do it because America has the electric power to do it. Electric power multiplies man-power and drives the machines that make tanks, planes, ships and guns.

How much power has America! More than the three dictators and all their conspired countries combined. Five times more than we had in the last war. And this has been done almost entirely by electric companies owned by millions of Americans and managed by American business men.

The full facilities of all these companies are dedicated today to making Uncle Sam so power-full that Axis aggressors will soon be nothing more than three lusts in the Hall of Infamy!

Now Is the Time to Fix Your Yard

Why not plan now to trim your lawn and clear those ditches you've been thinking of doing for months?

Summertime brings weeds and rains. Time is heavy on your hands, so come to BETZNER'S HARDWARE STORE and get the necessary tools to do a bang-up job.

Cut your grass, get rid of summer weeds and your home will be more cheerful and you will be more happy after working your worries away.

BETZNER'S

"The Hardware Store"

By DICK LEFELS

These days of rationing, drafting, registering and doing without has in some ways made us develop new hobbies as well as changing the routine of our everyday lives.

The other day I heard a fellow say that was in the draft age limit, that he believed his wife couldn't get along without him. "Why," he says, "you know, I have to get up every morning and cook her breakfast. On Mondays I help with the washing. Tussdays I help her clean house. Wednesdays I mow the lawn, Thursdays I'm forced to

BETTER LEARN to walk pretty quick, Junior. When the family car gives out, you'll have to start walking, too.

No use crying. It's the war, you know. So give Dad this tip. Tell him that Sinclair Dealers have developed a special Sinclair-ize service that makes cars last longer. Tell Dad that just as American railroads, airlines and the U. S. Army use Sinclair lubricants to save wear on vital transportation equipment, so can Sinclair Dealers use specialized Sinclair lubricants to save wear on your family's car.

Tell Dad to ask his nearby Sinclair Dealer about this service today. He'll find that Sinclair-ize service can save him money and worry, too.

the effects of this war on the home front. He evidently must have known what he was talking about, for some of us more or less homely looking men can't hardly even get a glass of ice water in some of the drug stores anymore unless you're wearing a uniform.

Our old friend Jeff Caffey up at the Bank of Pahokee is leaving us. There is lots of us that hate to see the fellow go, not that the man's place can't be filled, but you know we sort of learned to look upon Jeff as a kind of an ace-in-the-hole when it came to shootin' the wolf away from the door. The Bank's cash customers are not likely to ever miss 'im, neither are the bank officials, but the ones that stay in the society of ~~some~~ or ~~less~~ financial strain will miss 'im as if they had lost a good right arm.

We understand that Rupert Mock who has been with the bank ever since it had three dollars on the shelf is going to fill in Jeff's place. I don't know

anything about banking business but I've a notion they couldn't have figured a better one than they did when they pulled Rupert in.

About all of us creditors of society has to hope for is that Rupert will be as good as Jeff has been, and that Rupert does not try to outdo any of the older bankers ways of consideration, for if he did it wouldn't be good banking business.

Our war is practically won if you judged it by the way some of our defense classes are turning out.

LESSON-SERMON FOR CHRIST SCIENTIST

"Is the universe, including man, evolved by atomic force?" is the subject of the Lesson-Sermon which will be read in churches of Christ, Scientist, throughout the world on Sunday June 31.

The Golden Text is: "The Lord by wisdom hath founded the earth; by understanding hath he established the heavens" (Proverbs 3:19).

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "In the beginning God created the heaven and the earth. And the earth was without form, and void; and darkness was upon the face of the deep. And the spirit of God moved upon the face of the waters. And God said, Let there be light: and there was light" (Gen. 1:1-3).

The Lesson-Sermon also includes the following passage from the Christian Science text book, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "In the universe of Truth, matters is unknown. No supposition of error enters there. Divine Science, the Word of God, saith to the darkness upon the face of error, "God is All-in-all," and the light of ever-present Live illumines the universe" (p.563:10-15).

GOLF COURSE
(Continued From Page 1)
fore reaching the green. The second hole will be far down the fairway along side of the dyke, over 300 yards long. No one will think the Country Club Golf course will be a push-over and yet it will be a fairly easy course because of the flatness of the land and practically no rough. Out of bounds will be a great mental hazard though.

FIGHT AND WRITE
(Continued from page 1)
care of the canal zone area. He is expecting a ~~fight~~ ~~rough~~ soon and hopes to come home to Belle Glade.

EMMET KELSEY
After spending ten days at Blanding, I have been assigned to the Air Corps and sent to Keesler-Field, Miss. Tell every one hello and I would like to have the Herald so as to keep up with Belle Glade.

PEACE OFFICERS MEET IN PAHOKEE

The Palm Beach County Peace Association held their third regular meeting at the Pahokee Produce Market on Wednesday, Chief Baxter, host to visiting members. The meeting was well attended, approximately 60 officers from all over the county being in attendance.

A fish and swamp cabbage dinner was served. Following dinner many of those present were called upon for short talks. Chief of Police Jack Thompson of West Palm Beach presiding.

Ex-mayor John Dulaney of Pahokee was the chief speaker followed by others in turn. The subject for discussion was the National Emergency and problems arising from this emergency. Special emphasis was laid upon better cooperation among peace officers of the county. It was felt that this organization which brings officers from all parts of the county together and permits a better acquaintance is a long stride toward this better cooperation.

The state road patrol in this area were represented at this county meeting by Sergeant M. G. Britt and W. T. Carlisle.

Physical Requirements For Navy Modified

Jacksonville.—Physical requirements for enlistment in the U. S. Naval Reserve have been modified by the Navy Department, Lieut. T. J. Needham, Jr., Officer-in-charge for Florida Navy Recruiting, announced this week.

The modification affect the requirements for teeth and vision, and are expected to bring about the enlistment of large numbers of applicants who could not qualify for service under former requirements, Lieut. Needham explained.

With the exception of classes V-1, V-5 and V-7, the modifications apply to all classes of enlisted male ratings in the Naval Reserve, as well as the two

classes of ratings in the Merchant Marine Reserve.

Lieut. Needham said there has been no change in the physical requirements for appointment to commission rank in the Naval Reserve.

Also of interest to a large number of Floridians this week is the announcement that a

Navy Construction engineer would be in Jacksonville Friday and Saturday, June 19 and 20, and Tuesday, June 23, to interview applicants for the Seabees.

The "Seabees" at the construction battalions of the Navy, used to build advance and mobile bases. A large number of ratings are reported open.
